

CASH FIVE PRE-TEST RESULTS

A pre-test is an unofficial drawing that tests the machine and the ball set used for a *Cash Five* drawing. Pre-tests ensure that the drawing machine is working well and that balls are drawn in a random way.

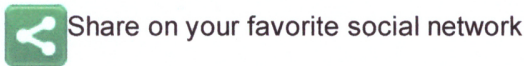

The Texas Lottery performs at least four pre-tests before every *Cash Five* drawing. A *Cash Five* ball set passes the pre-tests if the same ball is not drawn four or more times. If any *Cash Five* ball is drawn five times, the entire ball set fails and is removed from the machine and replaced by the alternate ball set.

When a ball set does not pass the pre-tests, more pre-tests are performed to test the alternate equipment. The second set(s) of pre-tests are shown in **RED**.

If the designated *Cash Five* drawing machine malfunctions during the pre-tests, the alternate *Cash Five* drawing machine is used. A new set of pre-tests are conducted with the alternate *Cash Five* drawing machine and the designated *Cash Five* ball set. The new set(s) of pre-tests conducted with the alternate machine are shown below.

Asterisks (*) mark the machine and ball set used for the drawing.

In the case of a discrepancy between the pre-test results listed on this website and the official pre-test records, the official records prevail.
